

This One Is Unique

Ordinary Water Softeners Don't Compare With a Kineticco Water Conditioner

- Non-Electric
- No Wasted Regenerant
- No Wasted Water
- No Comparison

It's That Simple!

Non-Electric.

A fully automatic control valve measures all water used and regenerates only when necessary. Kineticco Water Conditioners use less regenerant than electric softeners and don't require costly electronic repairs.

Twin Softening Tanks.

The revolutionary Kineticco Water Conditioner provides soft water continuously. When single tank softeners regenerate, only hard water is available for use. The Kineticco unit simply switches to a fresh tank and automatically recharges its twin with soft water.

If you must compare, here are 10 good reasons to check with your authorized Kinetico Dealer.

	Kinetico Water Conditioner	Single Tank Electric Timer Water Softeners
1. Non-Electric.	Yes	No
2. System design eliminates timer, solenoid and microprocessor problems.	Yes	No
